

Municipal Credit Analyst

Our client, a leading asset manager in the Mid-West is seeking a Municipal Credit Analyst who will conduct research as assigned by the Sr. Analyst on various municipal securities across multiple sectors. In addition, evaluate the general municipal market conditions, individual security structures, legislative and regulatory actions, individual municipal issuer credit profiles, and pricing (spread) trends. The analyst will issue reports and assign internal credit ratings and credit outlooks to securities under consideration for purchase or sale, as well as making purchase and sale recommendations to the portfolio managers. The analyst will also participate in periodic meetings with retail and institutional clients and their financial advisors and representatives.

The preferred candidate is an incumbent municipal credit analyst with at least two or more years industry experience covering a variety of municipal sectors. The successful candidate must be able to provide cogent research and analysis of municipal securities, and make reasoned recommendations to PM's. In addition, ability to evaluate general market conditions, individual security structures, legislative and regulatory developments, individual credit profiles, and pricing (spread) trends. A strong team player, the successful candidate must be a self-starter who is capable of taking ownership for the position and performing the duties of the role with minimal direction. In addition, the successful candidate must possess excellent written and verbal communication skills and be comfortable making presentations to retail and institutional clients.
